- | | |
|-------------------------------------|-----------------------------------|
| _____ 0 Fuel and replenish ! | _____ Get ready! |
| _____ Listen to your body and move! | _____ Smile! |
| _____ Don't get distracted! | _____ Change the scenery . |

Study Tips

Studying can be stressful, but you can make it easier and more fun. How can you do that? Just breathe, relax and try these suggestions.

⁰Eat a light snack before you study.

Drink water before and during your study sessions. Your brain needs fuel to learn, so give it some.

¹Make a study plan. Organize what you will do and make a schedule. Set a **timer** and take a break when the timer **goes off**.

²Try to study in a place that is calm, comfortable and quiet. Turn off your phone and don't read or answer texts while you are studying.

³If you are tired or in pain from sitting, reading or writing, take a break. **Stretch**, **breathe**, meditate, walk, run or talk to someone.

⁴Put some instrumental music on, change the **lighting**, open a window or bring your books outside. Moving and changing positions will really help your productivity.

⁵Smiling can help you learn! You can learn better when you are happy, and smiling—even when you're not feeling happy—can actually make you feel happier!

Try it! ✓

2 Read and circle the correct option.

0. **(Before)** / After you study, eat something and drink some water.
1. Make a study **plan** / **paper** and organize your work.
2. When your timer goes **out** / **off**, stop and take a break.
3. You **should** / **shouldn't** study in a place that is quiet and comfortable.
4. You **should** / **shouldn't** answer texts while you study.
5. Take a break and **sit down** / **move** if you feel any pain.
6. Change your **surroundings** / **books** to help your productivity.
7. If you want to learn and study better, you should **smile** / **change**!

Stop and Think! Which of these suggestions will you try?
